

THANKSGIVING DAY SET FOR NOV. 27

President Tells Good Things Year Has Brought, and Bids the People Rejoice

Thanksgiving day has been set for Thursday, Nov. 27, President Wilson has issued his proclamation. It reads:

"The season is at hand in which it has been our long respected custom as a people to turn in prayer and thanksgiving to Almighty God for His manifold mercies and blessings to us as a nation. The year that has just passed has been marked by a great degree by manifestations of His gracious and beneficial providence.

"We have not only had peace throughout our own borders and with the nations of the world, but that peace has been brightened by constantly multiplying evidences of genuine friendship, of mutual sympathy and understanding and of the happy operation of many elevating influences both of ideal and of practice.

"The nation has not only been prosperous, but it has proved its capacity to take calm counsel amidst the rapid movement of affairs and deal with its own life in a spirit of candor, righteousness and comity. We have seen the practical completion of a great work at the Isthmus of Panama which exemplifies the nation's abundant resources to accomplish what it will and the distinguished skill and capacity of its public servant, but also promises the beginning of a new age, of new contracts, new neighborhoods, new sympathies, new bonds and new achievements of co-operation and peace.

"Righteousness exalteth the nation and Peace on earth, good will toward men which can be built the lasting achievements of the human spirit. The year has brought us the satisfaction of work well done and fresh visions of our duty, which will make the work of the future better still.

"Now, therefore, I, Woodrow Wilson, president of the United States of America, do hereby designate Thursday, the 27th day of November, next, as a day of thanksgiving and prayer, and invite the people throughout the land to cease from their wonted occupations and in their several homes and places of worship render thanks to Almighty God."

INSPECTING BUILDINGS

Fire Chief Cole Makes Inspection Of All Business Blocks

During the past two weeks Fire Chief Cole of the local department, has made a complete inspection of all the business blocks of the city. This is in accordance with instructions from the State Fire Warden's Office at Madison. In making the inspection the condition of the walls, chimneys, roof, ways of exit, etc., is carefully noted, and also the manner of electric wiring of the buildings and the gas fittings. According to instructions Fire Chief Cole must make this inspection of business places four times each year, making note of any changes found since the previous visit. Mills and manufacturing plants are to be gone over twice yearly.

SHIP ICE TO RHINELANDER

Four car loads of ice was shipped from Gladstone to this city by the Soo line company to be used in re-icing refrigerator cars at this point. Although the company put up a large supply last winter the stock was exhausted early in the season and this was the second shipment that has been made from Gladstone. With the completion of a new ice house by the company this coming winter here it is expected that a shortage will not be likely to occur in the future.

HALLOWE'EEN

IN THE CANAL ZONE

A Clean Health Record Shown By Recent Report

Those who have been following the remarkable record of the work of sanitation of the Isthmian canal, and have watched the gradual reduction of the death-rate and the elimination of preventable disease, have hoped that before the monumental work of constructing the canal was finished it might be possible for Colonel Gorgas to present a report that would be clean as far as death from disease was concerned. The report of the Department of Sanitation for the month of August, 1913, just received, shows that during that month there were thirty-nine deaths from all causes among the employees of the canal commissioners. Of these, one, a Peruvian, died of malaria; another, a Spaniard, of alcoholism, and the third a Greek, of appendicitis. The only deaths among white Americans which occurred during the month were two from violence, one due to an accident on the railway and the other to an accident in the quarry. Among the 12,451 white American men, women and children on the Isthmus connected with the commission—that is, employees and their families—not a single death from disease occurred. The exodus from the Canal Zone has already begun; those employees whose work has been completed are returning to the United States with their families. The number of American citizens resident in the Canal Zone will probably decrease steadily in the future. It is a fitting climax, says The Journal of the American Medical Association, to the work of Colonel Gorgas, which has challenged the admiration of the civilized world, that the month which probably marks the high tide of American occupancy of the Canal Zone should have passed without a single death from disease in American colony.

CAUGHT WITH THE GOODS

Man Wanted At Merrill On Burglary Charge—Arrested Here

Two weeks ago the hardware store of Steffenhagen & Co. at Merrill was burglarized and about \$100.00 worth of knives, revolvers, watches, compasses and other articles of merchandise taken. The thief left a clew on which the Merrill officials could work, but notification was sent to officers in surrounding towns to be on the watch. Friday the local officers "spotted" a man who was endeavoring to dispose of various articles of the sort missing from the Merrill store. Lincoln county officials were notified and the man was held until their arrival. He was taken to Merrill and on Monday was bound over for trial in circuit court. When arrested he gave the name of Avery C. Clow, but beyond this the prisoner had little to say.

NEW TELEPHONE LINE

Direct Line Being Built From This City To Merrill

Two crews of linemen of the Wisconsin Telephone Co., are at work stringing wire for a new telephone line that will make direct connection between Rhinelander and Merrill. It is expected that the work will be completed within a month when the new line will be ready for use. The building of this line will greatly improve the service from Rhinelander to Merrill and other down river points.

FEED MILL IS INSTALLED

Jos. Goldberg Will Grind Feed For His Own Trade And For Farmers

After this week feed sold at the Goldberg flour and feed store will be home mixed and ground, Mr. Goldberg having installed a feed grinding mill equipped with electric power at his place of business. The gentleman has had the matter under consideration for some time and has been urged to take the step by frequent requests from farmers who have material they wish ground and converted into feed for their stock. The mill which has been purchased, has a capacity of 1600 pounds of ground feed per hour and is driven by a five horse power electric motor. Mr. Goldberg states that "if, after trial this is found inadequate to care for the grinding of his feed stock and that of his farmer patrons that it will be immediately replaced by a larger one that will meet all requirements.

A mill of this sort will be of considerable value to farmers having feed stuffs to grind as they can mix the proportions to suit their individual requirements.

MADE A FINE RECORD

Officials of the Soo line are considerably elated over the showing of train No. 17, the Chicago to Duluth "Velvet Special," during the months of August and September. The crack train reached the end of its run exactly on time on every day of the entire period, a record that will doubtless stand for a long time, not only with the Soo line but with other roads in the middle west and in fact the entire country.

TO LOG SEVEN MILLION

Matt Stapleton to Operate Three Camps and Log This Amount

The Stapleton and Barnes timber in the vicinity of Malvern and Monico will be logged the coming winter and camps and roads are now being built to be in readiness when proper logging weather prevails a little later on. Mr. Stapleton informs the New North that there will be three camps put in and possibly four, the combined output of logs from same being seven million feet. At this writing, the timber has not been disposed of but a Wausau concern is negotiating for its purchase. The timber lies less than fifteen miles from Rhinelander and should be manufactured at this point, and transportation rates favor this city over the down river town. Mr. Stapleton is giving his personal attention to the construction of the roads and camps.

CITY HALL FOR WAUSAU

Wisconsin Valley Metropolis Dedicates \$75,000 Building Yesterday

Few cities of the state can boast of as handsome and imposing a building for use of city officials as the new city hall at Wausau is. The structure was completed last week at a cost of more than \$75,000 and was formally dedicated yesterday. It occupies a position at the foot of Third street, Wausau's main business thoroughfare, its location being as central a one as could possibly have been selected. As far as possible everything that was used in its construction was of Wausau manufacture, and this feature alone makes the building of added interest to its citizens.

The Congregational Ladies' Aid Society will meet Wednesday Nov. 5, at 2 o'clock with Mrs. M. K. Shepard.

LOCAL HIGHS DEFEAT ANTIGO

Team From Railroad Town No Match For Our High School Boys

In a football game between the High school teams of Antigo and Rhinelander, played in this city on Saturday before a good sized crowd, the local pigskin chasers had a walk away from the start, the visitors at no time during the progress of the game having any show of making a score, the first touch down being made by Rhinelander after five minutes of play on a forward pass. At the end of the first half the score stood 13 to 0 in our team's favor and the other three touch downs were made in the last quarter, the game ending with the ball in the possession of the Rhinelander team and a score of 32 to 0, the goose egg standing to Antigo's credit.

The visiting team averaged up heavier than the locals and our boys rather expected to see a close fight if not defeat but when the game was entered into the Antigo lads showed a lack of training and what the Rhinelander team lacked in weight was made up in the excellent work that has been done this fall in getting the members in shape for meeting visiting teams.

The Antigo boys had expected to meet the Wausau High school team this week Saturday, but after their defeat here they disbanded and notified Wausau to find another team to play in their place.

LION TAMER NOT DEAD

P. W. Gollmar Makes Denial Of Published Reports To That Effect

Some weeks ago the New North as well as a number of other state papers published an article to the effect that the young lady with Gollmar Bros. circus doing the act with the lions in a steel arena had been killed by the animals while the circus was showing at an Iowa town. The story grew out of a slight accident which she met with in which she received only a few minor scratches and P. W. Gollmar of the show having heard of the reports being published, wrote from a point in Texas to the Wausau Record-Herald stating the true facts in the case. To show how slight the injuries were he states that the young lady did not miss a single performance as a result of it. A paper on the west ern border of the state is said to have been the originator of the story with all its horrible details.

KNOWN HERE

Capt. John J. Doyle of Engine Co No. 29 of the Milwaukee fire department, one of the men who lost his life in the Sunday night fire in Milwaukee, was known to a number in this city, having made visits here at different times on his annual vacations. He was forty-five years old and had been a member of the department for a great number of years.

SILVER ANNIVERSARY

Tuesday marked the twenty-fifth wedding anniversary of Mr. and Mrs. H. D. Johnston at Gagen and the occasion was observed by a family gathering at the Johnston home. Present at this was Mrs. Johnston's father, J. W. Liebenstein of Batavia; sister, Mrs. Torke of Waldo; and two brothers, Walter and Ervin Liebenstein of this city, the latter two accompanied by their wives.

COUNTY CARES FOR BUT FEW

Poor Commissioner Doyle informs the New North representative this week that at the present time only eight people are being cared for at the county home. This is a smaller number than for a number of years, the average being from twelve to fourteen. The gentleman also states that calls for outside aid have been less this year than at previous times.

These appalling facts should warn us that after sickness, colds, over-work or any other drains upon strength, Scott's Emulsion should be promptly and regularly used because tubercular germs thrive only in a weakened system.

The tested and proven value of Scott's Emulsion is recognized by the greatest specialists because its medical nourishment assimilates quickly to build healthy tissue; aids in the development of active, life-sustaining blood corpuscles; strengthens the lungs and builds physical force without reaction. Scott's Emulsion is used in tuberculosis camps because of its rare body-building, blood-making properties and because it contains no alcohol or habit-forming drug. Be sure to insist on Scott's.

WEEKLY COLUMN FOR THE FARMERS

Timely Article From The Pen
Of E. L. Luther, County
Representative

Now the rural schools are beginning to do the work that the county Board and the College of Agriculture planned for them to do when the County Training school and the agricultural representative ideas were adopted. Teachers trained in the training school are taking up the work of ruralizing the rural school. The schools are commencing to be made of use to the farmers who are paying the taxes. To illustrate: Miss Mary Huber is planning a social time at her school to raise money to secure a Babcock test and in a few days the town of Schoepke will have its first tester. Miss Besie Bibby will have a masquerade party at the town hall out in Pelican to get a tester. Miss Fenton in the Gross district in Crescent will have a social time to get a tester. Miss Myrtle McLaughlin in the McLaughlin district of Crescent on Thursday evening had a meeting of the people of her district at which old and young judged and identified potatoes and the meeting was a most enjoyable time and profitable. It will not be long before all about Oneida county we will have teachers who will be of service to the neighborhoods that support them. Then the people will be interested in their schools.

The manure from an average cow for a year is valued at \$20. There are probably 1500 cows in Oneida county. The cow manure of Oneida county ought to be worth \$30,000 a year. But it is safe to say that the way most of it is handled it is worth only about \$15,000. A \$15,000 loss every year. 75 silos, or 30 or 40 miles of road, or no telling how great crops lost every year in Oneida county by the way in which farmers handle the farm manure. The agricultural representative visited a farm only last week where there was a long, huge pile of rotted manure and right near it was a pile of poorly filled corn. Had this manure been applied out on the hills where the corn grew the corn would have been a splendid crop. We are now entering the season when farm manure is accumulating about the barn. If this manure is dumped out a part under the eaves rain will wash away about one-half of its fertility. If the manure is allowed to remain in heaps fermentation takes place and there is a great loss of nitrogen gas into the air and nitrogen is worth 15c a pound. It is the most expensive fertilizer. Visit the average farm and see the holes bored in the floors to let the liquid manure run out under the barn. One-half of the value of the manure on that farm is being thrown away. A farmer has ten cows. He throws away on purpose \$100 worth of manure when he boric holes in the floor or throws the manure out into heaps in the barnyard. \$100 will pay all of the taxes on the average farm in Oneida county and give the family some nice clothes besides. But the rich (?) farmer just deliberately lets \$100 worth of manure run down the useless slough and banks his money in the useless slough. How avoid that loss? Well, the best farmers in the county are now bedding down the cows and other animals well to soak up the liquid manure and then the manure is put into the spreader or onto a stone boat and moved to the fields every day and spread at once. This is the best way to handle farm manure. All of it is saved. It is not handled two or three times (some farmers seem to like to handle barnyard manure so they handle it two or three times) in the spring there is no loss of time at a most disagreeable task, and the barn yard is kept clean and pleasant to work in. Clean milk cannot be produced where cows waste in manure. Cows cannot produce as much milk when standing in a yard full of manure as they can in a nice clean yard where they can lie down. Oh, the loss from the present way of handling farm manure is appalling when it is all considered. Why not commence right now to get the manure right out upon the fields?

L. Stark and Co. have their potatoes dug and in the great ware house 34,000 bushels. Not many counties in the United States can boast such companies as that. Next year they plan upon 1,000 acres of potatoes. Chicago quotations are now from 63c to 72c. Watch the markets. Get in on top prices.

Wanted—Will pay \$25 and \$33. a month (according to ability) for a woman cook, also \$20 a month for girls for general house work. A nice home and but few boarders. Moore & Co., Pelican Lake, Wis. 033-n5
Al Duchac of Antigo, was in the city on business Thursday.

SEVERE BRONCHIAL COUGH

Doctors Feared Lung Trouble,
Restored to Health by Vinol.

The medical profession does not believe that lung troubles are inherited, but a person may inherit a weakness or tendency to them.

Mrs. Kate Heckman, Springfield, Ohio, says: "A few years ago I was in a very bad run-down condition, and the physician told me I had consumption. I tried another physician, and he told me I had ulcers on my right lung. I quit the physicians and started on 'Vinol.' Today I am perfectly healthy, and that is why I recommend 'Vinol.'"

Vinol soothes and heals the inflamed surfaces and allays the cough. Vinol creates an appetite, strengthens the digestive organs and gives the patient strength to throw off incipient pulmonary diseases.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you.

P. S.—For any skin trouble try our Saxe Salve. We guarantee it.

Reformation begins at home. Perhaps none of us observe carefully enough what our children are doing. It takes an awful object lesson occasionally to make us wake up. Let's all be charitable and sympathetic in times of trouble.

Rhineland is not the only place where the big fellows go before their employes on the board of review and have their taxes cut down. Cyrus Yawkey of Wausau went before the board of Hazelhurst and had his assessed valuation cut to suit himself.

Eight brave firemen of the Milwaukee department lost their lives in fighting fire in the Goodyear building. The worst of all, this fire seems to have been of an incendiary nature. If the culprit is detected he should receive severe punishment and still this would not return to life these eight brave fire fighters.

The Mexican election was held last Sunday and still the Mexican conditions are no better than before. No one received a majority of 51 votes cast. Huerta led in the election although the Mexican constitution forbade his being a candidate. Conditions may force vigorous action on the part of the U. S. at any time. Yet it is a great question how far we should go into this Mexican slaughter.

Parents should look after their children but if the children do wrong, try to make them see the error of their way and confess the truth. It never helps to make a child better to try to lay his bad deeds at the feet of an unfortunate child. Perhaps we all see too many faults in other people's children without giving due diligence to the oversight of our own family. Many boys have done wrong while young and still made the best of men but the reformation should begin with open confession and a determination to do better.

Ex-President Taft's characterization of President Cleveland, in his address dedicating the memorial tower at Princeton University is as follows:

"Mr. Cleveland was not a great lawyer; he was not a great economist; he was not a great orator; but he was a great President and a great man, and he was these because of his strong mind, clear intelligence and wide knowledge of affairs. He had the character, honesty, courage and sense of public duty which enabled him to meet great and critical issues without regard to personal consequences.

WISCONSIN RANKS HIGH

Not only did the last federal census reveal Wisconsin's high position in acre harvest of farm products, but a preliminary report just issued by the United States crop report just issued by the United States crop reporting board now places the Badger state in the highest position in quality of its oats crop for 1913. The yield per acre is rated higher than in any state of the so-called "corn belt." A partial synopsis follows:

Yield per acre Quality, bushels per cent.	Yield per acre Quality, bushels per cent.
Wisconsin.....	32.5
Iowa.....	31.5
Illinois.....	31.0
Minnesota.....	30.5
Ohio.....	30.0
Michigan.....	29.5
Indiana.....	29.0
4 other states.....	28.5

October 1, Wisconsin led all states in the condition of its tobacco crop with a percentage of 90. Statistics concerning the yield of corn have not been reported, but Wisconsin leads the states named in the present condition of this crop with a percent age of 84.

DOODGING TAXES

An investigation of the taxes throughout the county reveals the fact that the total assessment of the various towns was far too low when the suit was begun by the city against the towns but it also reveals that the large concerns like Brown Bros., Robbins Lumber Co., A. H. Siange Lbr. Co., and Cyrus Yawkey are the ones getting away without paying their proportionate share of taxes. In fact, in many instances, they have thousands of dollars worth of railroad and have been paying little or no tax at all on these properties. Of course in the case of that part of the Robbins road which is a common carrier, that road has paid taxes. When the State Tax Commission completes the work of equalization of the county in the suit of the city against the towns, we will be little nearer a just solution of this tax problem in Oneida county than we were before. The various towns will have an extra burden on them but the little fellow owning a small undeveloped farm will be bearing the burden, and the big fellows who own property in these towns will still be escaping taxation. There is one clear way and but one remedy this evil and that is for a taxpayer in each of these towns to call on the state for a re-assessment of his town, and then these big fellows will pay their just share. While we are at the job of re-assessment we should get to the bottom of things and put a just share of taxation on all property owners. For years the above concerns have dodged taxation but we hope the people are getting wiser and will immediately remedy this evil.

WHY SUCH SILENCE?

The News answers not a word to the figures and facts of the New North showing that Brown Bros were not paying on more than a fifth of the true value of their property in the town of Sugar Camp but, on the contrary, misrepresentation and abuse of the New North are the cudgels of the News to deceive and flitch the masses. The News knows too well that the law prescribes exactly what shall be paid for printing the tax lists and also who shall give out this printing; more, the News knows that the cost of printing this list is not charged to the taxpayers of the county but is paid by the purchasers of the tax certificates. The News hints at the fact that A. W. Brown, a member of the county board, put a motion at the board meeting that the printing should be let by the printing committee to the lowest bidder. The News forgot to say that Mr. Brown did not try to hem in any other committee, nor did Mr. Brown ask that the lumber should be bought by bids. Past records do not show that when Mr. Brown, as a county official, was purchasing lumber of Brown Bros. he ever got bids. The News says they do not need the public printing, if so, what is their motive in trying to destroy legitimate business at legal prices? When the News furnished five hundred copies of its issue to send to the State Fair, they certainly could not have thought of the county's interests when they charged five cents each for a little nine page paper, one page of which was wholly devoted to a News' stock holder's orchard when they never ordinarily charge over three cents each at wholesale for such papers. In contrast the New North printed five hundred copies of a twenty-four page paper the same week for the county and charged them four cents each. It makes a vast difference to the News under what conditions they set low prices on the work.

BILL PASSES SENATE

Senator LaFollette's bill to improve labor conditions for seamen was passed by the senate without roll call and without amendments. It is expected to pass the house. The LaFollette bill aims to prevent in voluntary servitude of seamen, to compel wage settlements in every port visited, to provide eight hours of labor for certain classes of work on ships and in many other ways to bind ship owners to treat their ship hands justly. Senator LaFollette said: "The ship owners say this will drive American shipping from the seas just when the 5 per cent tariff differential has been provided to aid American ships. But the shipping companies will find that these conditions will raise the standard of efficiency of workers, which will more than offset restrictions. Manufacturers opposed labor legislation to keep their factories sanitary and protect employees. Now they insist on retaining all these conditions. This law will be the salvation of American

shipping."

Senator LaFollette believes that the seamen's bill will be another effective blow at Special Privilege, according to his secretary, John J. Hanson, who says: "The big ship owners upon the lakes, as well as upon the ocean, have put all the force they are capable of commanding back of the effort to prevent the senate from coming to a vote upon this measure. The ship owners realize that its enactment means a revolution in the manner of conducting American ships. The effect will be felt not only on board of the ship flying the American flag, but will compel a raising of the standards in the ships of every maritime nation sending vessels into American ports.

Big Politics Back of Measure
"The great ocean-going steamship companies have reached into the privacy councils of several nations, and misrepresenting the purposes of the pending legislation have induced several governments, including France, England, Germany, and Holland, to file protests with the state department against any action being taken upon this subject by the American congress. They desire that action shall await the International Maritime conference, at London, Nov. 12.

"This conference will be controlled by those who are in sympathy with the big ship owners, and the recommendations which it will make for safety of life at sea will be shaded by the large ship-owning class."

EDUCATIONAL MEETING

A school board convention will be held at the Training School, Thursday, December 11th. A most interesting program will be given. This year both school board members and teachers are expected to be present. The reason why the teachers are requested to attend this convention is to stir up a mutual interest so that both board members and teachers may appreciate the other's trouble to some extent and that the two factors may join in mutual benefit to the child. Friday and Saturday, December 13th and 14th, a teachers' institute will be held at the Training school. All teachers are expected to be present at this institute and the school board members are cordially invited to attend this gathering, if possible. A man from the office of the State Superintendent will be present to assist in the convention. Prof. Cheever, of Milwaukee Normal, Prin. Dresden, Agricultural Representative Luther and others will take part in the program of the institute. Plans are being made for one of the most successful educational meetings ever held in this county. A full program will be published later.
F. A. LOWELL,
County Superintendent.

CARING FOR BRUISED WOUNDS

Injuries to Horace's Legs Are Serious and Should Be Treated So as Not to Leave Scar.

Bruised wounds do not require a great amount of attention, since they are usually protected by the skin, and germs cannot find their way in to cause much trouble. To keep down inflammation, it helps to bathe the skin with a solution made by dissolving two tablespoonfuls of lead acetate in a quart of water.

Leg wounds in horses are a rather serious matter, since they are likely to leave a blemish which will lower the value. It is important in treating them to secure a healing which will be so perfect that no one will suspect that a wound has ever been there. For such wounds one veterinarian suggests the following: Clean the wound with a wash composed of one tablespoonful of acetate of lead, one tablespoonful of sulphate of zinc, four tablespoonfuls of tincture of arnica, and one quart of water. This wash should be used every hour or so the first day and three or four times daily thereafter. The object is to keep the wound, while healing, lower than the surface of the skin. If it pushes up, bichloride of mercury, as much as can be put on the surface of a dime, should be placed on the sore. It is said that leg wounds thus treated will heal over, leaving no blemish.

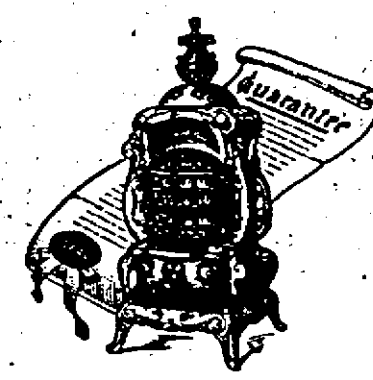

Contentment and Health.

When planning for grain crop and live stock improvements don't forget that the fruits and vegetables for the farm means more contentment and better health.

Unfit Work for Mare.

Breaking ground with a big plow or working a gang of heavy disks is hard work and a mare well along in gestation should never be used for this purpose.

Is \$10 To \$20 Saved On Fuel Bills Worth While to You?

If it is, we want you to come and see us, and we will show you a base burner that will not only save you dollars in fuel bills, but will also give you continuous heat day and night—upstairs and down—all winter long.

There are many reasons why the ECLIPSE BASE BURNER is the best and most economical heating stove in existence. In its wonderful system of warm air flues you will find one reason why it maintains an even temperature throughout the entire house on the coldest days of winter, regardless of whistling winds and driving blizzards outside.

In its "paper-tight" construction—for the Eclipse is accurately and tightly fitted by special patented machinery—is found the explanation why it will hold fire unattended for five successive days and nights without going out, always pouring forth an unvarying amount of pure, warm air from a steady fire. Flowers and delicate plants thrive in the fresh, healthful atmosphere supplied by a ECLIPSE BASE BURNER, it is the best method of heating for fragile women and children.

If you want your family to be warm, healthy and happy during the cold months you cannot afford to buy any heating stove but an Eclipse. It will keep Florida atmosphere in your house all winter long. It will give your wife a cozy and comfortable home in which to live. It will furnish your children warm with bedrooms in which to undress and go to bed.

Buying an Eclipse Base Burner is like putting money in the bank, because it saves its own cost in a few years use, and brings such luxury and happiness into the home. We also have a full line of Hand Sleds, Skees and Snow Shovels.

THE DECLARATION.

Upon the whole, this (the Declaration of Independence) is the most commanding and the most pathetic utterance in any age, in any language of national grievances and of national purposes, having a Demosthenic momentum of thought and a fervor of emotional appeal such as Tyrtæus might have put into his war songs. Indeed, the Declaration of Independence is a kind of war song. It is a stately and a passionate chant of human freedom. It is a prose lyric of civil and military heroism. We may be altogether sure that no genuine development of literary taste among the American people in any period of our future history can result in serious misfortune to this particular specimen of American literature.—Moses Colt Tyler.

PRETTY HANGING BASKETS.

Plenty of Young Plants Should Be Used—Moss For a Lining. The most unsightly part about the average hanging basket, especially if it has long been in private hands, is the bare sides and bottom. If such baskets cannot well be worked over and replanted get a handful of slips of wandering Jew or tradescantia, punch holes in the sides with a lead pencil and put in the cuttings. The basket will soon develop into a thing of beauty. When filling these moss covered baskets plenty of young plants of lobelia, saxifrage, hen and chickens, and the like should be freely introduced at the

the basket is gradually lined with moss and filled with soil.

The New Hydrangeas.

No flowers have of late years been more highly improved than the hortensia type of hydrangeas. New colors and forms with immense flowers are the distinguishing features of the new types. The individual flowers are rather less than the common type unless it be true that the flower trusses and foliage have so much increased in size as to reduce the single flowers to a minimum. The foliage is also vastly larger than in older types. One new white sort has the petals frilled and fringed, and all are now in bloom.

Author of "The Rubaiyat."

Edward Fitzgerald was utterly careless of his fame. He lived to be an old man, yet not one in a million of his fellow countrymen regarded him as a poet, even if they had heard his name mentioned as an old chum of Alfred Tennyson. Yet he wrote "The Rubaiyat of Omar Khayyam" long years before his death. He kept it "chucking about" apparently not thinking it worth publishing, and when he did print a few copies nobody took any notice of it. Today "Omar" is one of the most famous poems in the world.

Rather Dull.

When we get down to it, life hasn't half as many complications as a tencent melodrama.

SMOTHERING SPELLS

Sour Stomach, Heart Burn

In October, 1910, we received a letter from Mrs. Hall, from which we make the following extracts:

MRS. JAMES A. HALL,
Box 34, Morris City,
Illinois.

"About twelve years ago my health began to fail. I couldn't eat anything without suffering for it. I had heart burn, sour stomach, palpitation of the heart, smothering spells, pains in my sides and back. In fact, I suffered all over, and a cough almost like consumption. Doctors failed to relieve me; in fact, they didn't seem to know what ailed me. I continued to grow worse until I was able to sit up only a part of the time. I had almost lost all hopes of ever being any better. "But one day some one threw some books in at my door. I read them and found them to be Peruna books. They described my feeling so truly I sent at once and got a bottle and began taking it. You pronounced my ailment systemic catarrh, and gave me some advice. "When I had taken two and one-half bottles I began to eat without suffering. I continued to improve. "When I had taken eight I was like a new person. That was nine years ago. "I think Peruna the greatest family remedy there is, for so many ailments are due to catarrhal trouble. I would advise any one afflicted with catarrh to take Peruna and I am sure it will leave." In the Revised "Tills of Life" we have many similar testimonials which should interest sick people everywhere. Sent free by the Peruna Co., Columbus, Ohio. "People who object to liquid medicines can now obtain Peruna Tablets.

MOTHERS GATHER

The South Park Mothers' Club held its first meeting of the year Friday, Oct. 24, 1913, at which forty-five mothers were present.

The following officers were elected: Mrs. Wilde, president; Kittle Selbel, secretary. The South Park Mothers' Club is the first mothers club in the city having a permanent organization with officers.

Miss Bing gave an interesting and instructive talk on the care of the teeth and general topics relating to the child's health.

After the discussions of subjects pertaining to school matters refreshments were served.

The purpose of these meetings is to bring the parents, teachers and pupils into closer relationship, and it is hoped that all south side mothers will take an active interest in the meetings and so make them a success.

MEETING OF BUSINESS MEN

KOLDEN'S

"The Quality Store"

A REASON WHY THEY CAME

Many people have come to Wisconsin from Wayne county, Ill., this year. The Wayne County Press notes this fact and urges farmers to stay in the county. John T. Gregory of Boylston writes to the paper asking how to stay, and adds: "We lost our crops last year by floods but we did not miss paying our taxes. I own 50 acres of land, 60 acres cleared, 20 acres in woods, and worked hard and raised only 20 bushels of corn and seven tons of hay. I also lost 70 acres by the floods planted on my neighbors' farms that I had rented. Now, my tax was \$40.25 drainage, \$24.00 land tax, \$17.00 personal tax, \$2.50 road tax. I lost 40 acres of corn this year by drought."

From the above there would seem to be some difficulty "staying." People coming to the cheap land of Wisconsin have no such troubles. Neither flood nor drought troubles them. They will continue to come.

NEW TRIAL FOR SHAW

The supreme court has ordered a new trial for Samuel Shaw in his action against the Forest Echo. The case is the outcome of an article published in the Forest Echo some time ago in which it was charged that Shaw, as a member of the county board voted to sell court house bonds to a company not the lowest bidder. Shaw claimed this statement libeled him. The Echo answered that its charge was true. The circuit court threw out the complaint and Shaw appealed. The case has attracted considerable attention owing to the prominence of Mr. Shaw at Crandon where he has resided for a great number of years.

FRED McDILL MARRIED

The Gladstone Reporter of last week contained an account of the marriage of Fred McDill, a former Rhinelander boy to Miss Viola Fitch of Manistique, Mich. The event took place at the home of the bride on the Monday previous. The couple are now on their wedding trip, which will include a visit to Minneapolis, Duluth, Superior and other cities. On their return they will make their home in Gladstone where the groom holds a position as engineer on the Soo line.

Great sale on sweaters and mackinaws at Jacobson's.

The Wesleyans of the M. E. church will hold a Thanksgiving sale at the church parlors, Saturday November 22, afternoon and evening.

OUT OF DANGER

John Peterson, who while at work for the Onondaga Gas Co. last week was injured by a cave-in of a trench in on the road to recovery. It was at first feared that internal injuries might cause complications from which death would ensue, but nothing of this sort is now looked for by the attending physicians. However, it will be some time before he fully recovers from the effects of the accident.

TWO MATCHES ARRANGED

A ten round boxing match has been arranged for at Oshkosh for November 15, between "Billy" Perkins of this city and "Steamboat" Scott, and for November 27 at the same place a ten round bout between Perkins and Ed. McGorty. The Rhinelander pugilist has met Scott and been awarded the decision at Milwaukee and the match arranged with McGorty did not materialize.

Perkins is in training here for a week and will then go to Minneapolis to finish before entering the ring. He is confident of meeting with success in the forthcoming matches.

Mrs. J. B. Loey was an Antigo visitor on Monday and Tuesday.

Three Lakes News --and This and That

Geo. Ball is busy at present putting in a furnace. George is a busy fellow.

Julius Johnson is getting things in shape for a new furnace at his residence.

Mrs. D. E. Lamon and children spent the first part of the week at Antigo.

Mr. and Mrs. C. Godlewski have accepted a cooking job in one of the Robbins camps.

Rev. Sille was a guest at the home of Father Toplak, Eagle River Friday and Saturday.

B. M. Louk is putting a cellar and stone foundation under his residence on Gogebic St.

The latest report says that John Gorski is gaining rapidly and that the danger point has passed.

Mrs. John Ziembinski is now on the sick list and in all probability will have to be removed to a hospital for treatment.

It is said that Chas. Rich is at present at St. Mary's hospital. 'Osh kosh and that he underwent an operation for appendicitis.

Alex McBae of Rhinelander is here this week looking up data for the Wisconsin Tax Commission. Alex is pretty well posted on land values.

Mr. Townsend of C. & N. W. cruiser, was in town the first of the week. He is looking after some Northwestern lands near Seven-Mile Lake at present.

M. H. Thompson will have charge of one of the Robbins camps this winter—we understand he will have his last year's camps on the south end of Big Lake.

Mrs. Homer Drake, of the "Resort," Lauration received the sad news to the effect that Mr. Drake's mother had suddenly passed away at some point in Ohio. Mrs. Drake boarded the first south bound train.

Raymond Ziembinski returned from Antigo on Monday at which place he went to visit his brother John who is at the Monohue hospital. He reports that John is a little better this week than last week.

Ed Meyer accompanied by his friend, Miss Lizzie Blong, came down from Eagle River via auto on Sunday. The Dr. makes the trip in about 40 minutes and if the roads were real good he would make it in 20 minutes.

Rev. Stebbins of Clearwater Lake transacted business in town on Monday. He reports that the Clearwater folks are busy at present fixing up their portion of the town roads and that the roads will soon be in tip top condition.

R. Barker has been appointed by the C. & N. W. Ry. Co. to assist their agent at Pelican Lake. He departed for Antigo on Saturday and as soon as he passes the examination he will take charge of his new duties at Pelican Lake.

Lloyd Adderson has gone to Mercer to accept a position in a factory. Howard and Violet Neu Sundayed at Crandon with their sister Rose and of course the baby. This was their first traveling venture and they reported as having enjoyed a swell time.

Contractor Rice of Rhinelander who is at present busy working at the Drake Resort met with a peculiar accident on Saturday. He brought Mrs. Drake to town with Mr. Drake's launch and as he entered Maple lake he found that the lake was frozen over, but as the ice was light he was satisfied that the boat could easily break through and land Mrs. Drake at the dock in time to make the south bound train. However, the ice was too much for the boat as the boat received an ugly cut on each side and had Mr. Rice failed to have presence of mind in promptly transferring all his weight to the bow of the boat, the launch would have undoubtedly sunk. Mrs. Drake experienced a scare which she will long remember.

Mrs. Ziembinski had the misfortune of falling down a stairway and getting quite badly injured.

The Koebke and Collins families of Antigo Sundayed at their summer homes on Planting Ground lake. Mr. Koebke is somewhat under the weather and came up for a change.

The Aldrich family are now numbered among our village folks—they moved to town on Saturday, occupying the Russell house on Superior St. Hog cholera is giving some of our farmers the real blues. The dreaded disease is killing off scores of pigs throughout the town. Among those who have had heavy losses are numbered: Fred Piehl, Dell Brewster, J. B. Loey, J. H. Korzilius.

JOINED HEARTS

Paddy Crawford-Hortense Thurber Two more of Three Lakes' young people are happy. They are Paddy Crawford and Miss Hortense Thurber. The ceremony was performed at Antigo and most unexpectedly to their many young friends. It was some little time after their return that the real truth leaked out and the young folks promptly organized a real serenading party and the air was soon filled with the ring of sleigh bells, cow bells and tin horns and the newly weds appreciated the efforts of the young folks and gave them a general treat. We join the many friends in wishing Mr. and Mrs. Crawford real home life and a most prosperous future.

EVERYBODY TURN OUT NOV. 11.

Rhinelander, Wis., Oct. 25, 1913.
Mr. W. J. Neu,
Three Lakes, Wisconsin.
Dear Mr. Neu—

The "Potato Special" will stop at Three Lakes on Nov. 11th in the forenoon I think. This is a fine recognition of the worth of the Three Lakes region as a potato growing section.

Now I hope that no effort be spared to bring out a big crowd to see the special. I wish that you would call attention to it in the Three Lakes columns in the New North and also help by advertising the car among your patrons.

The business of Three Lakes ought to make this visit the opportunity to boom the potato business of the Three Lakes community. Oneida county is coming to the front very fast. The northeast portion with its fine lakes, rich level land and good railroad facilities ought to lead the procession.

I am going to try to get out a good attendance from the Clearwater Lake community. If it would seem to be worth while I can run over to Three Lakes for a day and help to advertise the car.

Allow me to remain,
Yours very truly,
E. L. LUTHER,
Agricultural Representative.

Steel Lined SHOT SHELLS

Cut down your lead—Get your bird
with the center of the lead

In the making of shotshells, the greatest forward step
since the invention of smokeless powder is the steel lining
to grip the powder and concentrate all the drive of the
explosion back of the shot.

It's a Remington special invention—that steel lining.
You find it in Remington-UMC Arms and Nite Clubs.
These steel lined shells get their shot to the target quicker
than any other shells know to the shooting fraternity.
They cut down the guess-work about lead and angles.
They put the center of the lead right on your bird.

It's steel lining is moisture-proof—no dampness can get through
the shell—no powder can get out. Waste powder—no danger is lost.
Shoot Remington UMC Arms and Nite Clubs Steel Lined Shot
Factory Loaded Shells for Speed Plus Pattern in any make of shotgun.

Your dealer carries them—or, if he doesn't, there's a
more alert dealer in this section who is worth your finding.

Keeps Your Stove "Always Ready for Company"

A bright, clean, glossy stove is the joy
and pride of every housekeeper. But it
is hard to keep a stove nice and shiny—
unless Black Silk Stove Polish is used.

Here is the reason: Black Silk Stove
Polish sticks right to the iron. It doesn't
rub off or dust off. Its shine lasts four
times longer than the shine of any other
polish. You only need to polish once
a week as often, yet your stove will be
cleaner, brighter and better looking than
it has been since you first bought it. Use

BLACK SILK STOVE POLISH

on your parlor stove, kitchen stove or gas stove.
Get a can from your hardware or stove dealer.
If you do not find it better than any other stove
polish you have ever used before, your dealer is
unwilling to refund your money. But we feel
sure you will agree with the thousands of other
up-to-date women who are now using Black
Silk Stove Polish and who say it is the "best
stove polish ever made."

LIQUID OR PASTE ONE QUALITY

Be sure to get the genuine. Black Silk Stove
Polish costs you no more than the ordinary kind.
Keep your grate, registers, fenders and stove
pipes bright and free from rusting by using
BLACK SILK AIR-DRYING ENAMEL. Brush
free with each can of enamel only.

Use BLACK SILK METAL POLISH for silver-
ware, nickel, chrome or brass. It works quickly,
easily, and leaves a brilliant surface. It has no
equal for use on automobiles.

Florence—
Operations at the Vivian mine have
been discontinued by Pickwands,
Mather & Co., at Quinnesec and
the machinery and mining equip-
ment of every description will be
shipped to Iron River where it will
be used at one of the company's
properties in that district. The Vi-
vian has been operated for about
ten years, but as the ore secured
was of low grade it has not yielded
a very great profit to the company.
It is not likely that it will ever be
worked again.

Eagle River—
By raising 650 bushels of potatoes
on two acres of ground Herman Rade
a farmer living near here, wins a
cash prize of \$20.00 offered by a
Chicago tourist during his visit
here last summer. Five of Mr.
Rade's neighbors also entered for
the prize and each raised better
than 250 bushels to the acre. The
Chicago gentleman is very much in-
terested in the agricultural devel-
opment of this section and has made
large investments in farm lands
hereabouts.

Merrill—
The saloon keepers of this city
at a meeting recently held decided to
abolish the free lunch in their plac-
es of business, the new order to be
come effective on November 1st.
The plan of serving "free eats"
at stated times daily, they say is not
only a costly one for the dealers in
liquid refreshments but it has a ten-
dency of attracting a class of "un-
desirables" to the saloons. The
serving of free lunch is a greater ex-
pense than the yearly license fee
paid to the city.

Park Falls—
The Wisconsin Pickle Co. of
Green Bay have decided to estab-
lish a pickle station at this point,
providing they can interest a suffi-
cient number of farmers in the vicin-
ity of the city in the raising of cu-
cumbers. The prices which the
company pay are \$1.10 per hundred
weight for cucumbers ranging in
size from 1 1/2 to 4 inches long and
35c per hundred weight on cucum-
bers from 4 to 5 1/2 inches in length.

Merrill—
During the past week the C. M.
& St. P. Ry. Co. have been making
purchases of much property in this
city and also in the direction of the
Copper River country. A surveying
crew is also at work running out
lines and great activity is evident
on all sides. While no definite in-
formation is being given out by rail-
road officials it is hinted that this
is the beginning of an extension of
the line to Superior. If this is true
the long talked of "cut-off" from
Wausau to Berlin will doubt-
less follow. The latter will shorten
the distance to Chicago seventy-five
miles.

Hurley—
Robert Gill and Joseph Le Gendre
have been held for trial in circuit
court on a charge of arson made
by officials from the State Fire War-
dens' office. Recently the store
building of Mr. De Fer at Saxon
was destroyed by fire and it is

believed by many that Gill and Le
Gendre may have been the persons
who caused the blaze, which was
clearly of incendiary origin. Both are
held in jail in default of \$1000 and
\$2000 bonds.

Ironwood—
The body of A. J. Roth who was
lost in the woods on Sunday, Oct.
16, while hunting, was found Thurs-
day afternoon. From the location
where found it is believed that Roth
became demented as his tracks in
the snow showed that he had crossed
several clearly cut trails which
he could have easily found his way
out to main traveled highways or
to the railroad track. He was mar-
ried and leaves a wife and family in
this city.

Prentice—
The Meyer-Morner Lumber Co.
have purchased the saw mill plant
of the Red Birch Lumber Co. a
Catawba and have plans for enlarging
and greatly increasing the output
of the mill, with the ultimate con-
version of the plant into a wooden-
ware factory. The firm has exten-
sive timber holdings near Catawba
and will log heavily the coming
winter.

Birmingham—
A test over the constitutionality of
the peddlers' license law will be
made in the Supreme Court by T.
W. De Witt of this place, the case
to be tried next month. Mr. De Witt
claims the law is unconstitutional in
that the license fee charged is ex-
cessive as to be in effect a tax.
De Witt conducts a general store
in Birmingham and travels through-
out the country selling medical supplies
for a Minnesota company.

Tomahawk—
Plans are about completed for the
erection of a large piano factory in
this city which will employ four
hundred hands. Contracts have al-
ready been let for the erection of
seventy-five modern type dwelling
houses which the company will fur-
nish for the skilled help. Consider-
able of the stock of the new com-
pany has been subscribed by local
people.

Ashland—
A case involving the rights of
parents and teachers has come be-
fore the Ashland school board, with
indications that it will go through
the courts. E. H. Allen, through
his attorney, presented a petition
to the board asking that his daugh-
ter be excused from physical cul-
ture exercises and shower baths.
By a divided vote the board turned
down the petition on the ground
that if it were allowed to continue
it would interfere with discipline.

A NOTABLE AWAKENING

FORMATION RATHER THAN RE-
FORMATION THE FIRST END
OF PRESENT DAY RELI-
GIOUS WORK.

John L. Alexander of Boy Scout Fama
a Convention Speaker.

The great task of education is the
formation of character. The task of
religious education, the formation of
Christian character. Life's early years
are its formative years, and at the
Annual Convention of the Wisconsin
Sunday School Association, to be held
at Sheboygan Nov. 11-13, those inter-
ested in religious education will have
the opportunity of hearing some of
the most successful workers the coun-
try has produced.

Mrs. Phoebe A. Curtiss, Columbus, O.,
Elementary and Home Department
Superintendent for the Ohio Sunday
School Association.

Mrs. Phoebe Curtiss of Columbus,
Ohio, Miss Mabel L. Bailey, of Kan-
sas, and many from our own state
will be heard in the School of Meth-
ods, at which every phase of Sunday
School work with children will be dis-
cussed, and the best methods of or-
ganization and teaching presented.

One of the religious leaders, who
has most effected the work with older
boys and girls on the North Ameri-
can continent, is Mr. John L. Alexan-
der of Chicago, formerly Executive
Secretary of the Boy Scouts of Ameri-
ca, member of the Men and Religion
Forward Movement, Team and Y. M.
C. A. worker.

John L. Alexander, Chicago, Ill., Teen
Age Superintendent for the Interna-
tional Sunday School Association.

His Scotch wit and keen logic make
him an entertaining and convincing
platform speaker, worth going miles
to hear; and in the School of Methods
he is an instructor second to none,
because of his wide experience and
splendid training.

He will be assisted in work for the
Teen Age group by Mr. R. C. Macken-
zie, of Neenah, recently come to the
state from Ohio. Teen Age specialist
for the Wisconsin Sunday School As-
sociation.

Besides these there will be the
prominent leaders in Sunday School
work in our own state, many of whom
are well known beyond the borders
of Wisconsin.

Delegates to the Convention will be
provided lodging by the hospitable
people of Sheboygan. Dinner and
supper will be served in the spacious
Eagles' Hall, by the Jung company.
Those expecting to attend should send
their names, with the registration fee
of one dollar, to Mr. Carroll Quimby,
Sheboygan.

It promises to be the largest con-
vention of its kind ever held in the
Badger State and will present the
finest program ever offered to its
Sunday School workers.

Windows and streets will be deco-
rated, and on every hand will be a
"Welcome W. S. S. A."

Full information as to the details
of program and registration may be
secured by writing to the Wisconsin
Sunday School Association, Neenah,

TWO RIVAL SYSTEMS

By EDNA WARFIELD

Mr. Penfield was the proprietor and
editor of a newspaper called the Uni-
on. He had his own notions as to
how a newspaper should be conducted.
His plan was to please as many per-
sons as possible. Miss Williams was a
"new woman" who was supporting
herself by teaching. Mr. Penfield met
her and was attracted to her largely
on account of her force of character
and intellectual abilities. Miss Wil-
liams was attracted to Mr. Penfield
largely on account of admiration for
a man in power, for he was a man of
authority, having under him subedi-
tors, clerks, printers, etc.

There are as many kinds of newspa-
pers as there are kinds of men. Mr.
Penfield's policy was with a view to
making his paper pay or what he con-
sidered the best method of making it
pay. Miss Williams' idea of a news-
paper was an intellectual engine to
mold opinion. That is what she sup-
posed Mr. Penfield's paper to be, be-
cause she supposed that to be what
newspapers are for. They became en-
gaged.

One of the triumphs of the Union
was the election of the governor of the
state, for it was generally conceded
that the paper's brilliant advocacy of
the governor's side and stinging con-
demnation of his opponent and his
principles had secured the election.
But when the campaign was over the
Union returned to its independence,
which meant that it was at liberty to
please the greatest number, thereby
securing the greatest circulation and
consequently the greatest income from
advertisements.

A question of moment came up, in
which the governor took a decided
stand. It was supported by many and
opposed by an equal number. Miss
Williams supposed that her lover
would stand by the man if he thought
him right and oppose him if he thought
him wrong. One day an editorial ap-
peared in the Union, written in the
style of the editor in chief. It read as
follows:

It is perhaps too early to discover
whether the governor has acted wisely in
the matter or whether he has been indis-
creet. No one will doubt that he has
been influenced by the highest motives, though
there are those who will deny this, con-
sidering that his object is to fill his pocket-
book. Even these will admit that his pre-
vious record has been free from making
money by virtue of the official positions
he has held. There is but one charge
against him that has never been satisfac-
torily answered, and this is balanced by
many acts that have redounded to the
benefit of the state. Those who support
the governor's policy have the satisfaction
of knowing that in the many important
political questions with which he has been
identified he has usually been right. Only
in two cases has he been wrong.

When Miss Williams read this leader
the blood came into her cheek and an
ominous light flashed in her eye. Was
this molding public opinion? She had
not informed herself of the matter in
question and, having no opinion on it,
was free to be influenced by the man
whose intellectual strength had won
her. Great was her disappointment.
Later in the day she took up the Sentin-
nel, a paper that had bitterly opposed
the governor's election, and read in an
article a clear, logical argument as to
why the governor was right on the
question at issue and calling on all
good citizens to support him.

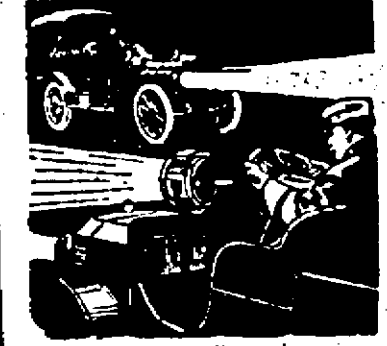

That evening when Mr. Penfield
called on his fiancée he found that she
had gone to spend the evening with an
aunt. Since she left no message for
him he was miffed and did not call
again for a week. Two days after his
article on the governor's policy an
editorial appeared in the Bee under the
head of "On Both Sides of the Fence,"
quoting from his own editorial and
comparing it with the one on the same
subject in the Sentinel.

Never had Mr. Penfield seen himself
so ridiculed in the columns of any of
his competitors. So stinging were
many of the phrases used that every-
body would say: "That's the pain-
fullest sting the Bee ever gave. Ha, ha!"
Inquiries were made at the Bee office
as to who wrote the article, but no
information on the subject was given
out. Mr. Penfield was not seriously
troubled about the article. He had his
policy and considered it the only policy
on which a newspaper should be run,
but he began to feel uneasy about his
fiancée. He expected to meet her cas-
ually, but did not.

One morning the Bee appeared in a
new dress, and the first article on the
editorial page was an announcement
that Miss Elizabeth Williams had
bought the paper and would there-
forward be the editor in chief.

When Mr. Penfield saw this an-
nouncement a light was turned on in
his brain that revealed several things.
He knew that by his attempt to please
everybody he had disgusted his fiancée.
He knew that Miss Williams had writ-
ten the article ridiculing him in the
Bee. And he was destined to learn
that there were more ways than one of
running a newspaper.

When Mr. Penfield met Miss Wil-
liams again neither of them referred
to their past relation; they met as pro-
prietors and managers of two different
newspapers. The editors adopted a
policy of not troubling her readers with
her own opinions, but when she did it
was after mature consideration and
investigation, and it usually turned out
in the end that she was right. She
gradually drew away from her rival
and former fiancée, though both were
successful under their own peculiar
methods.

DEATH CALLS MRS. TAYLOR

On Sunday a message from St.
Vincent's Hospital, Green Bay, to
Mrs. Anton Rheume brought news
of the death of her sister, Mrs. L. Lee
Taylor at an early hour that morn-
ing.

Mrs. Taylor underwent an opera-
tion at the above named hospital a-
bout two months ago for gallre and
after a stay of three weeks, return-
ed to her home at Watersmeet, hav-
ing to all appearances fully recovered
from the effects of the same. She
later suffered a relapse and last
week it was deemed advisable to re-
turn to Green Bay for further treat-
ment. Her condition, however, show-
ed no improvement and she passed
away at the time above stated.

Deceased will be remembered here
as Ellen Jansen, previous to her
marriage, having frequently visited
at the Rheume home. She was
about thirty years of age. A hus-
band and three children are left to
mourn the loss of wife and mother.

Burial was at Marinette, Tuesday
morning.

Within a few minutes of the time
of receiving news of her sister's
death on Sunday Mrs. Rheume re-
ceived a message saying that a
brother's wife in Calgary, Can.,
had also passed away. Death in this
case also followed as the effects of
an operation which she had under-
gone a few days previous.

SPEND SOME MORE MONEY

It is singular that at this time,
when the heads of the irrigation de-
partment and the interested western
railroads confess that they are un-
able to settle the irrigation projects
that are now ready, Secretary of the
Interior Lane comes out with a re-
commendation that another \$100,000,
000 be spent in building more irri-
gation projects.

It is proposed that more irrigation
bonds be issued. Where should
Wisconsin and other states of the
middle west stand on this proposi-
tion? Why should Wisconsin be asked
to bear some of the burden of
boosting other sections against its
own interest?

It has been the policy of the irri-
gationists to ask other states to
bear the burden of building irri-
gation works, and then pay the ad-
vertising expense of fooling the peo-
ple (their own people) into leaving
better chances and settling upon
the irrigated lands. The latest re-
ports show that two-thirds of the
land now ready for irrigation is va-
cant and that the people now there
cannot make their payments. In the
same article in which Sec. Lane
advocates more bonds and more ir-
rigation works he says that the time
for payment must be extended from
ten to twenty years. Wisconsin has
plenty of vacant lands that don't
need irrigating.

Offered a New Experience.

"Supposing I give you your supper,"
said the tired looking woman, "what
will you do to earn it?" "Madam,"
said Meandering Mike, "I'll give you
an opportunity of seeing a man go 'trot-
ting a whole meal without finding fault with
a single thing." The woman thought
a minute, and then told him to come
in and she'd set the table.

THE CANDLE WHICH LIGHTS THE WAY TO HALLOWEEN FORTUNES

HALLOWEEN TABLE DECORATION.

AN effective decoration for the Halloween table is shown here. It is a mammoth candlestick with a witch surmounting the handle and with Halloween spoons fluttering around her. Surrounding the candle is a white cat which holds in its paws the tiny ribbons to the ends of which are attached the fortunes of the guests. These fortunes are hidden inside the candle and at a signal are drawn out by means of the ribbons. They are humorous predictions for each guest's future. This quaint and pretty decoration is made of pasteboard covered with crepe paper.

HALLOWEEN ENTERTAINING

Keep the Children Amused and Occupied, and They Will Not Want to Play Naughty Tricks on the Neighbors.

AND now come the Halloween elves and imps. Of these latter we have, alas, too many in almost every community. Gates that disappear over Halloween night and doors whose deputed surfaces bear eloquent testimony of their onslaughts are some of the evidences of their existence and energy.

Just why the small boy or girl should revel in mischievous tricks at this season is a mystery. Perhaps it is because in every juvenile mind there is the inclination to imitate pranks and the traditions of All Saints' eve make them for that time lawful amusement. In some neighborhoods these childish jokers are so numerous and so abundant that they grow to the proportions of a pest. Neighbors who resent their activities are unpopular, and policemen who try to keep them within bounds are looked upon as tyrants.

Parents who permit the promiscuous playing of Halloween jokes are the ones who should be held accountable. They should provide for the youngsters some diversions that will keep them indoors.

In neighborhoods where a big barn or stable is available the children of several families may unite in having a co-operative party. The owner of the stable should be asked for permission to use it, and after it is tidied up the interior may be decorated with autumn leaves, pumpkin jack-o'-lanterns, ripe ears of corn with the husks and notices cut out of paper.

The children may each contribute a share to the simple refreshments, and it will be a jolly affair if the party is a masked one. The masques may be cut out of muslin and the masquer's costume need be nothing more elaborate than a sheet, blanket, curtain or rough cover draped gracefully over his or her other garments and secured by safety pins. At a certain hour disguises may be thrown aside. If one or two older persons will help the children they may be depended on to plan for themselves just the kind of party they want and suggest the most satisfactory games.

In one neighborhood where the depredations of the small boy had been particularly annoying in years past a teacher thought of the plan of providing a jolly Halloween entertainment for the children.

It was given in the schoolhouse and kept the youngsters pleased and amused until 10 o'clock, when they went home tired and happy with their parents, who also had been invited.

The entertainment included an exhibition of the children's work, some music and a stereopticon show. The children in the higher grades had helped the teachers in giving Halloween touches to the hall and school-rooms. There were decorations of cut paper from the lower grades and pictures in colored chalk on the blackboard. All the children felt that they

had a hand in the affair. Certain of the older boys were appointed as special officers for the night to see that boys went quietly home and that none lingered to cut up in the region of the schoolhouse. The success of the entertainment was such that it is to be repeated with the advantage of the experience gained.

In another neighborhood the ladies of a church got up a special Halloween party. To this they charged a small admission fee. They had Halloween cake, ice cream in fancy molds, Halloween candies, all of which they sold. Besides, they had a Halloween pie on the order of a Jack Horner pie; a witch with a grab bag and other seasonal diversions. There was music to give favor to the affair, and altogether it was a most enjoyable function, adding materially to the fund of the ladies' society by which it was given. They found that the fun, which was of a simple, wholesome kind, was enjoyed by even the most staid and elderly of the congregation.

When giving a Halloween party for the tiny tots it is a good plan to have it in the late afternoon hours instead of evening. Even the most hardened Halloween games and tricks will appeal to the children, and the hostess who undertakes to entertain them in this way will find herself well rewarded by their enjoyment. A too exciting party is to be avoided, for small nerves are delicate. The humorous, picturesque and poetical features of Halloween should be touched upon.

Halloween table decorations and Halloween favors have little that is new to commend them. From year to year we are treated to the witches and their cats, the jack-o'-lanterns, elves and fairies, autumn fruits, nuts, etc.

Watch Ribbons.

Watch ribbons are sold for prices ranging from less than \$1 to \$4 or \$5. The ribbon-black watered ribbon, in some cases showing a fine edging line of white—is about a quarter of an inch wide and incidentally can be bought for 10 cents a yard at the ribbon counter. The small silver or gold slides are what make the made up ribbons cost. Half a dozen of these little buckle-like slides are arranged on each ribbon. Those which reach to the waist line are a yard and a half long.

THE SOURCE OF SUPPLY.

Man Who Buys Goods Away From Home Town Is a Detriment.

One of our citizens is going to build a house next spring. He expects to buy the lumber in Illinois, the mill work in Iowa and the furniture somewhere else. The point also he will buy by mail. He doesn't expect to buy anything in this town. All he expects this town to furnish is the money to pay for the stuff.

He is one of those fellows who believe it is more blessed to receive than to give. He believes that the acceptance of a thing carries with it no obligation to reciprocate. He thinks it is entirely right that the town should support him, but entirely wrong that he should be expected to help support the town.

When he asks you to stop a moment to admire his new house you might also stop a moment longer to admire his gall.

There is one consolation—he will probably get stung—American Lumberman.

OVER IN EAGLE RIVER

Statements of Eagle River Citizens Are Always of Interest to Our Readers

To many of our readers the streets of Eagle River are almost as familiar as those of our own town, and we are naturally interested to read of happenings there. The following report from a well-known and respected resident will be helpful to numbers of men and women here in Rhineland.

James Oberholtzer, Eagle River, Wis., says: "Five or six years ago, my limbs began to swell and doctors told me that my kidneys were badly disordered. I was hardly able to get about and although I took medicine faithfully, I did not improve. When almost about to give up in despair, I was advised to try Doan's Kidney Pills and did. In a short time I was cured and since have enjoyed good health."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

WOODRUFF

David O'Connell of South Kaukauna spent Sunday here visiting his friend William Farrell.

Miss Helen Paul left Sunday night for Antigo where she intends to attend High school.

Miss Ethel McCamley spent Saturday and Sunday here with her sister, Mrs. S. E. Hoyer.

Mr. F. A. Lowell visited our school Monday.

The Ladies' Aid meets with Mrs. Zimmehman Thursday; it is hoped a large crowd will attend.

Wm. LaDuke of Rhineland called on his patrons here Thursday.

Mrs. Hofmeister left Monday for a visit with relatives at Wausau.

Mrs. Gus Anderson and daughter Gertrude are visiting friends and relatives at Sterens Point.

Mr. Schael of New London displayed his late fall suits and coats at the Wisconsin House Wednesday.

To Give Children Birthright.

The advisability of legislation in New York for the benefit of children of marriages entered into in reliance on divorces which the New York courts will not recognize is indicated in the decision of the court of appeals in Baylis vs. Baylis. The decision shows that legislation is necessary in order that children of a marriage entered into in good faith may be relieved of a slur on their names and a grave disqualification as to the rights of property. The court held that the statute providing that where it appears that a marriage was contracted by at least one of the parties in good faith and in the full belief that the former wife or husband was dead, or without any knowledge by the innocent party of said former marriage, the children of the subsequent marriage are deemed to be legitimate children of the parent competent to contract the marriage, does not include a case in which the innocent party acted on the erroneous belief that the other had been legally divorced.

BAKER LAW HELD VALID

Supreme Court Says Saloon License Law Is A Legal Measure

In the list of decisions handed down by the supreme court Tuesday was one sustaining the constitutionality of the Baker saloon law which limits the number of saloons to one to 250 inhabitants and prohibits the transfer of licenses from one location to another until the ratio is within the limit.

The effect of this decision by the supreme court will, it is estimated, nullify between 2,000 and 2,500 saloon licenses granted last July at various points in the state, probably as many as 400 being in the city of Milwaukee alone.

There is scarcely a city of any size in Wisconsin that will not be hit by this decision. This ruling on the law was brought about by a test case from Milwaukee county in an action against a saloon keeper that had been granted a license by the common council and was later arrested for selling liquor without a legal license.

The state is sustained on every point. The court holds that the limitation fixed by the legislature only operates to create a preference temporarily and that provisions for one saloon to every 250 people are "presumably adequate facilities for quenching all lawful thirst."

The justification for the exercise of the police power in restraining or prohibiting the sale of intoxicating liquors has been stated and restated time and again, says the opinion of Justice Vioje; "It may be summed up as resting upon the fundamental principle that society has an inherent right to protect itself, that the preservation of law and order is paramount to the rights of individuals or property in manufacturing or selling intoxicating liquors, that the sobriety, health, peace, comfort and happiness of society demand reasonable regulation, if not prohibition of the liquor traffic."

Tested by fundamental principles and without going into a detailed objection raised against the constitutionality of the law, it cannot be said that it unreasonably affects either the rights of persons or property in the sale of intoxicating liquors. It permits a saloon for every 250 inhabitants, presumably adequate facilities for quenching all adequate thirst. It reasonably protects all persons engaged in and places used for the sale of intoxicating liquors at the time it went into effect.

"If, incidentally, to these legal regulations certain places or persons are given a preference or that rights thereto are limited or entirely destroyed, such result does not affect the validity of the act. As soon as cities grow so that they will be within the ratio limit or as soon as they vote to remain within it, all preferences will disappear."

PUPILS TO ENTERTAIN

Pupils At Central School Will Serve Supper Friday

The teachers and pupils of the grades located at the Central School (old high school) have decided to serve a Halloween supper on Friday evening from 5:20 to 8:30 o'clock and a sufficient number of tickets have been disposed of in advance to warrant us in making the statement that the venture will prove a successful one.

The proceeds will be used to pay rent for a piano in the building and for the purchase of additional equipment for games. They should be encouraged in the work by a large attendance of the parents and friends.

FOR SALE

I own 340 acres of elegant sandy loam land, 5 miles from Rhinelander that I will subdivide and sell at \$15.00 an acre and up. Finest spots to land in the world. Improved farms surrounding it, school house on it, and good roads to it. Easiest kind of terms to the man who will move on and improve it.

Baseball Truism.

A pitcher may fool some of the batsmen all of the time, and all of the batsmen some of the time; but now and then they get together and knock him out of the box.

THEOCRITUS.

Demeter, rich in fruit and rich in grain, may this corn be easy to win and fruitful exceedingly. See that the cut stubble faces the north wind or the west; 'tis thus the grain waxes richest.

They that thrash corn should shun the noonday sleep. At noon the chaff parts easiest from the straw. As for the reapers, let them begin when the crested lark is waking and cease when he sleeps, but take holiday in the heat.

Lads, the frog has a jolly life. He is not troubled about a tatter to his drink, for he has liquor by him untroubled.

AT THE MAJESTIC

High Class Vaudeville Bills And Late Picture Releases

Curry and Cummings, vaudeville artists, have delighted large crowds at this popular place of amusement Tuesday and Wednesday nights this week in as clever a singing, talking and dancing comedy act as has been presented here in some time. They close their engagement here with their appearance tonight.

Some very strong photo plays have also been shown on the screen this week, Mr. Zander endeavoring to secure for his patrons the very best productions and late releases in that line. That the people appreciate his efforts is shown by the very liberal patronage that is being accorded to this theater.

LAND FOR INDIANS

W. W. Bennett of Carter, a special Indian agent, accompanied by an interpreter, has been visiting at points in Forest, Marinette and Oneida counties where there are a few members of the Pottawatomie Indians located for the purpose of gathering them together and placing them where they will be cared for by the government. These Indians were originally in Kansas but wandered years ago to Northern Wisconsin settling in small numbers, in widely scattered localities and to day only a remnant of their former number is left, the band in this county being in the Little Rice country in the western part of the county.

Congress has appropriated funds for the purchase of lands for the remaining members of the tribe, stipulating that these lands be purchased in Wisconsin or Michigan.

PLAYS TO SMALL HOUSE

"The Wizard of Wiseland," the attraction at the Grand Opera House Sunday evening was greeted by a less number of people than attended the performance given by "The Pink Lady" company a week previous. The production, while not so elaborate as one as the latter was fully as enjoyable to many. The company number twenty-five people.

Supplying One's Own Punctuation, Cleverly Constructed Letter Has Two Different Meanings.

A queer letter, so constructed, without punctuation, that it can be read in a number of different ways, giving directly opposite meanings, is in the possession of W. G. Shaw, now living in Illinois. He copied it from an Indiana newspaper when he first came to this country, in 1855. He is now seventy-nine years old. The letter follows:

"He is an old experience man in vice and wickedness he is never found opposing the works of iniquity he takes delight in the downfall of the neighborhood he never rejoices in the prosperity of any of his fellow creatures he is always ready to assist in destroying the peace of society he takes no pleasure in serving the Lord he is uncommonly diligent in sowing discord among his friends and acquaintances he takes no pride in laboring to promote the cause of Christianity he has not been negligent in endeavoring to stigmatize all public teachers he makes no exertions to subdue his evil passions he strives hard to build up satan's kingdom he lends no aid to the support of the gospel among the heathens he contributes largely to the evil adversary he pays no attention to good advice he gives great heed to the devil he will never go to heaven he must go where he will receive his just recompense of reward."

Word of Popular Origin.

Gob is an old English word, meaning a lump or chunk of something, and was sometimes applied to money in a slang sense; a gob of money, as we now sometimes hear a wad of money. Gob is of uncertain origin, but the word gobbler, as to gobble one's food, or to eat by chunks, evidently has the same root. Shakespeare speaks of cutting something into gobbets, meaning small pieces.

HIGH SCHOOL NEWS

First Report Cards Of The year Will Be Given Out Next Week.

The report cards for the first six weeks of work in high school will be given out next week. Parents should examine these carefully and investigate thoroughly if the records are not entirely satisfactory. Now is the time to straighten out matters, if pupils are not doing good work.

Too many pupils have the habit of falling in recitation and examination. Reasons are various. Parents ought to find what the causes of failure are, and see that they are overcome. Now is the time to do this. It should not be neglected until the habit is firmly fixed.

If your pupil is not doing as good work as you wish find out why. Ask the student, the teacher, the principal—find out. You are entitled to know. Only when you have exhausted every resource are you entitled to lay the blame anywhere. A little effort now will save much trouble later.

The foot ball team have no game this week. Next week Saturday, they will close their season in a game with Tomahawk at Tomahawk. The Junior girls entertain the two upper classes and the teachers of the high school Friday evening, at a Halloween party in the gym.

SECOND NUMBER OF COURSE

The second number of the concert course secured for Rhinelander by the Wesleyans of the Methodist church, will be given at the Grand Opera House on the evening of Saturday, November 8. Seats will be on sale and may be reserved at the Variety Store after Wednesday, November 5. A Colonial program will be given at this concert.

ONE YEAR AT WAUPUN

Ignatz Bordka who made an attack on a companion at Hobsor some time ago, using as his weapon an iron stove poker, appeared before Judge Steele this morning and entered a plea of guilty to the charge of assault with intent to do great bodily harm. He was given a sentence of one year in Waupun prison first day of which is solitary confinement. Bordka has been in this country only a little over a year. The sheriff took the prisoner to Waupun on the 10:26 train.

LAUREL BAND DANCE

At Gilligan's Hall next week Thursday night the Laurel Band will give a dancing party for the purpose of raising funds to help along the organization. Music will be furnished by the Military Orchestra and every effort will be made to make the evening a pleasant one for all who attend. Tickets have been placed at a price within the reach of all, 25 cents.

Worth Knowing.

If a package of value is to be sent a great distance, it is an excellent idea to provide the box with a cover of unbleached muslin securely sewed in place. If the shelves and floors of closets are wiped with water which is hot with cayenne pepper, insects will be kept away. Borax and alum are good to put into the cracks.

Expensive Love.

"But when you asked for my daughter, you told me you had money enough to support her in the style she was accustomed to," said the father, who had been touched. "Yes; but that was a year ago, sir," replied the young man. "Being engaged for a year is expensive work, sir."

IT HAD TO HAPPEN

By H. C. TILLMAN.

"Oh! I wish we never had thought of having that old picture taken."

Maud Clark was in real distress as she said this and threw herself down on the comfortable old sofa and finished the cry which she had begun when she had sent Jack the note. She was very miserable and very proud.

"The mean, hateful thing, just as though he could make me do anything!" There was no doubt that she was very mad—or pretended to be. She arose and walked over to her window. The lights and the ever-passing crowd would at least attract her mind from the hateful picture and the more hateful things that it had brought.

"There are plenty of men," she mused in a half-conscious way, as she turned and walked back to the sofa. Just then her eye chanced to fall on the picture of Jack that had hung in the place of extreme prominence over her mantle for over two years. He was so good looking and had such an elegant expression that anyone would have liked him. She was sure of that. Their love had been a rather peculiar one. He was very poor and she was very rich and pride had them waiting for him to make a little money before they married. Her parents had never objected in the least and in fact they were in favor of the match. Until three days ago they had been getting along so smoothly, and just as they had about determined not to wait any longer the crash came, and all about a little picture. How she hated that picture. After satisfying herself that she had done the right thing, she bundled up all of his notes and the picture over the mantle and addressed them to Jack Croyleston—being careful in the little note she inclosed to be as sarcastic as she could. Then she began crying again.

Jack Croyleston was sitting in his office when the messenger boy handed him a note. He sat for a moment when he read it and then began pacing the floor. George Coles found him still pacing up and down, half an hour later.

"Hello, what's the trouble, Jack? Clients not coming fast enough to suit you?"

"No—worse than that. Read that," as he showed the note across the table to George.

"Well, of all the fools. Don't you know you can't boss a woman. At least not until you marry her."

"Yes, I know it now."

Wiley was very busy the next morning when there was a knock on the door and Maud Clark walked in.

"Mr. Wiley," she began, and Wiley might have expected a proposal from the bluish which accompanied it. "Maye you the negative you took of Mr.—Croyleston and me the other day?"

"Yes, Miss Clark, I think it is here."

"Could I get it, please. I want to break it."

"I'll have it for you in a minute," said the kind photographer.

A moment later there was another rap at the door and Jack Croyleston walked in.

"I beg pardon," he stammered.

"Certainly," was the cool reply. Wiley was gone longer than Maud had expected. She was having a hard time trying to keep her eyes off of Jack. He was seated in the far end of the room and was pretending to be very deeply interested in his morning paper.

"Oh, I wish he would hurry up with it," Maud was finally forced to say.

"With what?" was Jack's response.

"The—er—nothing—the—nothing. I mean the negative."

"Is that what you came for, too?" Jack asked in a cool tone.

"Why—yes—I believe it was."

"So did I," Jack said as he looked her full in the eyes.

"What were you going to do with it?" she asked, letting her eyes drop.

"Break it—what else?"

"Oh, how could you, Jack—Mr. Croyleston?"

"How could I what?"

"Why—break it." And Jack could stand it no longer.

"Maud, let's not break it at all. I'm sorry."

"No, Jack, I was foolish." And Jack had crossed the room and she was in his arms. They heard Wiley coming and both were very much interested in some new photos when he entered.

"I am sorry I kept you waiting, Miss Clark. I had a hard time finding it, but here it is. You can break it if you want to, but I think it very pretty."

"Never mind the wait," Maud started, but Jack interrupted her.

"You can fix me up two dozen—and have you a proof?"

Wiley looked a bit puzzled and handed him a proof.

"I want to show this to your parents," he said to Maud as they closed the door. "Wiley is a clever man. Two dozen? Why, we will send that many to George and the others that we are married."
